Chromebook Use Policy

As a student participating in B-Spa's Connected Chromebook Initiative, I _____ agree to the following terms, conditions, and policies regarding the provided Chromebook as outlined and identified below

1. The student has been given permission from his or her parent or guardian to be provided a Chromebook and the parent/guardian signifies awareness of the terms of this agreement by printing his or her name and signing in the spaces below.
2. The student is aware that he or she is solely responsible for the safe, responsible use and return of the stated equipment. Deviation from the intended use of the Chromebook will result in disciplinary action. All aspects of the Ballston Spa Central School District Acceptable Use Policy and Code of Conduct apply.
3. The student and family understand Chromebooks represent a considerable investment of school funds and thus accept responsibility maintaining the proper working conditions of the device by **keeping the battery charged**; when the Chromebook is left unplugged for extended periods of time the battery loses its charge and ceases to work. Furthermore, in the event the Chromebook is lost, stolen, not returned, or is otherwise damaged or rendered inoperable due to mistreatment or irresponsible use above and beyond that of normal wear and tear, the student will be responsible for the cost of the replacement of the Chromebook, charger, and/or battery based on current value and shall reimburse the school district within 30 days of such determination.
4. This agreement shall remain in effect for the duration of the loan period.
5. The student will be responsible to return the equipment, when indicated by the district, for maintenance or other needs.

Student Name: _____ Grade: _____

Parent/Guardian Name: _____

Parent/Guardian Signature: _____ Date: _____
