

Clean Technologies & Sustainable Industries Early College High School Program

As the new calendar year begins, we will be starting the formal mentoring program for P-TECH students. In order for students to participate in the formal mentoring program they need to have this form signed and submitted by January 8th.

By signing the form below, you indicate that you understand the format of the mentoring program and agree to follow the established expectations.

- The goal of the mentoring program is to connect students to business and industry representatives to help them learn about career opportunities and develop workplace skills.
- Mentors are representatives from local business partners and have all gone through a background check.
- Mentoring will occur virtually via WebEx and the online platform Mentor Place. Students will receive log in information to these sites. Students should only communicate through these platforms and meet the mentors in person only during formal organized activities set up by the ECHS.
- Mentors and mentees will work together to complete assigned tasks every two weeks.

Student Name: _____

Student Signature: _____

Date: _____

Parent Name Printed: _____

Parent Signature: _____
