Reading: Something About Hensley's

This week we will learn about understanding characters through their actions, motivations, and traits as we read Something About Hensley's & Make Way for Dyanonde Daniel. Finally, students will also learn about story message, or what the author is trying to teach us.

Math: Adding & Subtracting

This week, we will continue learning strategies for adding and subtracting in which they will use across three-digits., as well as different types of word problems using the word problem mat to organize their thinking. An informational guide will be coming home soon about the different types of problems and strategies.

Science: Plants

This week, we will learn about the parts of a seed and how they grow and travel. Students will complete an experiment in which they learn about the best conditions to grow a seeds. Finally, students will free write about a seed traveling and growing using all that they know.
