

10. The frequency table below shows the distribution of scores for 30 students on a recent math test.

a. Complete the table.

Scores	Frequency
51-60	1
61-70	3
71-80	7
81-90	12
91-100	7

Cumulative Intervals	Frequency

b. Construct the **cumulative** frequency histogram.

c. Find the percentage of students that scored an 80 or below, to the nearest tenth of a percent.

d. What 10 point interval contains the median?
